

Interdisciplinary Graduate Program in
Molecular & Cellular Biology

Spring 2013 Workshop & Seminar Series

“Characterization of GBV virus C target cells in HIV/GBV-C co-infected subjects: effects on immune activation and cell survival”

Ernest Chivero
(Stapleton Lab)
Molecular & Cellular Biology

“CD45 promoter exclusively marks multilineage hematopoiesis in vitro and following transplantation”

Khanh Duong
(Levasseur Lab)
Molecular & Cellular Biology

Thursday, March 14

NOTE TIME CHANGE: 1:00-2:00 p.m., 1289 CBRB
